*****SNAP Participants MUST be Belmont County residents and provide proof of need*****

To receive assistance through the BCARL Spay Neuter Assistance Program, you must return this completed form along with a copy of your residency verification, income or need documentation and \$20 payment for each certificate requested. Once the required documents and payment has been received, we will mail a SNAP certificate which covers the costs of a cat or dog spay or neuter surgery at a BCARL spay neuter event. In order to receive the proper certificate, accurate information is needed about each animal. SNAP Certificates have no cash value and cannot be used toward vaccines or other services. SNAP Certificates are redeemable at BCARL Low Cost Spay Neuter Events only. Your pet will be assigned an event date based on availability which will be provided on the SNAP certificate.

If you have more than 3 pets needing spay or neuter assistance, please use an additional form.						

Do all of these pets reside with you permanently? Yes or No

If NO, please indicate which pets do not reside with you permanently and who owns them _____

BCARL also offers an electronic form that can be submitted via our website bcarl.net. When completing the online form, be sure to have the documents ready to upload from your device and the ability to pay the \$20 fee.

Paper forms must be mailed to the address listed above. Veterinarians at the low cost spay neuter events are governed and licensed by the state in which they are located. They are not owned and/or operated by Belmont County Animal Rescue League. Pet owners should refer to the additional services price list provided with the certificate for any additional charges before the spay/neuter procedure date. **All vaccines and other services are the responsibility of the pet owner and are due in cash the day of the event.** If you do not present proof of a current rabies vaccine, you are required to purchase one for your animal at a cost of \$7 each. This program is not intended for animals you have in your care as fosters, rescues, etc. More guidelines are available on our website at bcarl.net on the current projects page.

I have read and understand the above. I am a Belmont County resident and I cannot afford the full cost of spaying or neutering my pet(s).
